**RE: FORMER RAYMARK INDUSTRIES – SUBMITTAL OF ACT 2 FINAL REPORT
RT PROJECT # 2708-066**

Dear Ms. Matyskiela:

RT Environmental Services, Inc. (RT) on behalf of the Manheim Area Economic Development Corporation, Green Tree Solutions, LLC and the Phoenix Group is pleased to submit Act 2 Land Recycling Final Reports, for the Upper and Lower Mill facilities at the former Raymark Industries plant. These address impacted soil and groundwater from the production facility which operated for a long number of years.

Other environmental issues at the site were managed as follows:

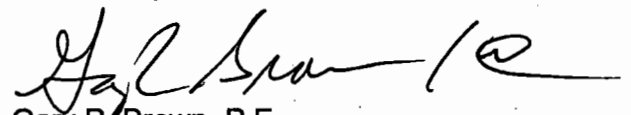

- The Upper Mill Landfill was closed, and, a Closure Certification to the Pennsylvania Department of Environmental Protection (PADEP) was issued. In addition, the landfill groundwater monitoring is completed, and the landfill cap is maintained.
- The Lower Mill landfill was abandoned by order of the Bankruptcy Court, and closure was addressed by PADEP under the Hazardous Sites Cleanup Act. This work was completed by others and PADEP would need to provide further information on that, should you require same.

Thanks for your help on this project.

Should you have any questions, do not hesitate to call.

Very truly yours,

RT ENVIRONMENTAL SERVICES, INC.

Gary R. Brown, P.E.
President
